## **MOSS internet-pc (Mi-pc) Beta Test Program**

The **Mi-pc** beta test program is limited to those people sponsored by one of the US Moss Inc Generic Businesses (GB) or the Euro Moss Inc Generic Businesses or the China Moss Inc Generic Businesses licensed to do business in specified Fields of Use under an Automated Business Companies (ABC) Field of Use Licenses agreement. Parties wanting to be a beta tester can do so by contacting one of the GB's or by contacting MOSS Services Inc.(MSI) a Private Texas Corporation that supports all of the GB's and their customers on the MSI Server Farm. MSI is and engineering company dedicated to developing proprietary products from the IP owned by ABC and licensed to the GB's. These products provide the various GB's a competitive advantage such as the Omni park pass Inc (OPPI) **Mi-oppi** programs for Live Entertainment Facilities and the First Automatic Securities Trading (FAST) system developed for the GB's in each country obtaining a Trading Securities Service Field of Use License from ABC. To obtain more information about the beta test program or the companies mentioned above please
